

Help Support the Safe Kids Program

Safe Kids Fayette County is committed to providing an injury prevention program that is accessible to the community at-large. In order to ensure program excellence and accessibility to childhood injury prevention education and preventive devices such as child safety seats, bike helmets and smoke detectors, we need the financial support of our coalition partners.

Safe Kids has grown since it began in Lexington in 1993 and has become the leader within our community in offering child safety resources. In 2005, Safe Kids Fayette County was recognized as one of the top five coalitions in the United States. Today, there are over 450 coalitions nationwide and in 17 countries.

With the increased demand for our free programs and resources, the cost of providing these services has increased as well. Please consider making a tax deductible donation to Safe Kids Fayette County. Support the valuable resources this program offers and contribute to a safer community for children.

As little as \$100 would provide ten bike helmets to needy children.

A \$500 donation would provide ten car seats to families whose children might be riding unrestrained.
