Imagine the frustration of living with debilitating epileptic seizures. Now imagine how frustrated Matt Coomer felt when his neurologist fired him as a patient because he wasn’t satisfied with his treatment options. After visiting several experts, some as far away as Cleveland, Matt found the best care right here—at UK HealthCare. As the region’s only Level IV Epilepsy Center, UK has the latest diagnostic monitoring equipment to define, classify and localize seizures, so expert physicians can create an effective treatment plan. Turns out, Matt didn’t have to go very far to find options, caring doctors and, ultimately, hope for a cure.

To see Matt’s full story, visit ukhealthcare.uky.edu/matt or call 800.333.8874 for information.
