Kentucky’s only
NCI-designated cancer center

At UK Markey Cancer Center, we’re winning in the fight against cancer. Markey is the only National Cancer Institute (NCI-designated) facility in Kentucky. Earning that distinction signifies national excellence in clinical care and cancer research.

Our patients benefit from:
• New drugs and treatment options only offered at NCI centers
• Access to trials only available at NCI centers
• A team of expert physicians, scientists and staff offering compassionate care

If you or someone you know is diagnosed with cancer, we’re ready to fight with you. For an appointment, call 800-333-8874 or visit ukhealthcare.uky.edu/Markey

B. Mark Evers, MD
Director, Markey Cancer Center

An NCI-Designated Cancer Center
