

THE HEALING PRESENCE OF ART

UK Arts in HealthCare Call for Art

In continued celebration of the many talents of our faculty and staff, UK Arts in HealthCare is issuing our 8th annual juried call for art. The purpose of this call is to encourage our employees to think about and experience the healing power of art and understand how art enhances the healing environment.

The art, selected by an independent jury, will be framed and exhibited in two employee galleries at Pavilion H and UK Good Samaritan. **The call is open to all UK employees and their immediate family members.** After being exhibited in the employee galleries, the art will become part of the UK Arts in HealthCare permanent collection. Each piece will be moved to a clinical location with employee recognition.

Please submit up to three pieces of two-dimensional art in any medium by emailing a photograph of each piece along with your completed entry form to sarah.timmons@uky.edu by October, 2020.

Selected artists will be notified by September 27, 2019.

The art should be un-framed and no larger than 20 x 30 inches. Photography must be submitted in printed form. No electronic files will be accepted.

Art that is not selected can be retrieved at the Arts in HealthCare Office after September 27, 2019.

For more information, contact Sarah Timmons at 859-323-4446 or sarah.timmons@uky.edu.
