LARRY L. CUNNINGHAM JR., DDS, MD, FACS

Interim Chair

The Department of Oral Health Science provides consultation and comprehensive care including orthodontics for all levels of dental needs for children, adolescents and adults. Our faculty specialists also provide care and diagnosis of oral mucosal diseases and various facial pain disorders. Our oral and maxillofacial surgeons' services include removal of teeth and tumors, treatment of infections, and treatment of injuries to or malformations of the mouth, jaw and related structures.

DIVISIONS

- Adult Dentistry
- Oral and Maxillofacial Pathology
- Oral and Maxillofacial Surgery
- Orofacial Pain
- Orthodontics

Adult Dentistry is an accredited program for graduate dentists to prepare them to perform complex dental treatments within the general practice of dentistry. Both faculty and residents provide comprehensive dental treatment for adults. Adult Dentistry provides consultation and comprehensive care for all levels of oral and dental needs for adults including treatment under IV moderate sedation and in the OR under general anesthesia. Service is available for the compromised or healthy patient.
